## Network Scope & Strategic Value

- **Pre-vetted Freight Routes:** Infrastructure is completely established for seamless alignment with major national and regional distribution frameworks.
- **Major Enterprise Hub Integration:** Deep route density built around high-volume clients including extensive Aldi networks (18 hubs), Kroger facilities, and global logistics providers like Sysco.
- **Cold-Chain & Fresh Optimization:** Deeply anchored corridors across the Midwest and Northeast ensure optimal timing
- **Regional Gravity:** High-frequency lanes across core industrial zones facilitate easy backhauls and steady freight capacity.

## Primary Corridor Density

Our dense route infrastructure is anchored heavily across the following top regional state networks:
